Contact Email:

Type of Charge Point Required:

Charging Time¹ Table Vs Power Needed

HRS	Phase(s) ²	kW	Amps
6	1	3.7	16
3.15	1	7	30
1	3	22	30

Charge Point Selected:

1. If you have a single (1) phase supply then your building will not support the installation of a 3 phase charger
2. This is an indication only, actual time will vary by vehicle type and battery charge state at the time of the charging session

About Your Site:

What vehicle(s) will be charged on site?

Will any excavation or trenching work be required? If yes please provide an estimated distance.

_____ meters

What is the estimated distance between your consumer unit and the proposed charger location?

_____ meters

Do you have a spare way available in your consumer unit?

Once completed please email your form, a photograph of your desired charge point location and a photograph of your consumer unit to: ben@caplor.co.uk
